3. Richard J. Daley Center Operating and Capital Budget

The PBC, through its building manager, MB Real Estate, develops an annual Budget to cover the operating and maintenance costs for the Daley Center, as well as a Budget for capital projects which support in maintaining and upgrading the 50-year old facility. The Daley Center Operating and Capital Budgets are approved at the PBC's Annual Meeting. Both components are allocated amongst its tenants: Cook County, the City of Chicago, and the PBC based on the square footage of space each occupies.

The proposed Operating Budget for 2018 is \$15,779,771 which is a .32% increase over the 2017 budget.

For 2018, costs savings in the operating budget are expected to result from reductions in building insurance, administrative expenses and general building expenses. Projected increases stem from rising utility costs, annual increases to security services and cleaning expenses.

The resulting rental rate is \$12.39 per square foot, an extremely competitive rate given the location and landmark quality of the building when compared to similar types of buildings in the Loop.

2018 Annual Budget Executive Summary

Introduction

The Public Building Commission of Chicago and MB Real Estate Services is pleased to present the 2018 Operating and Capital Budget for the Richard, J. Daley Center. The operating expense budget of \$15,779,771 reflects a minimal increase of 0.32% over the 2017 Budget of \$15,729,598.

The 0.32% increase in operating expenses equates to \$50,173 and is a result of rising utility costs, annual increases to cleaning wages and additional security staff to operate the building's freight elevator. Increases in other expense categories are primarily the result of annual changes to Union labor rates. These increases are primarily offset by lower administrative and mechanical maintenance expenses.

The Percentage for Operating Expense Allocation for 2018 are as follows: Cook County – 95.88%, City of Chicago – 0.348% and Public Building Commission - 3.76%.

Operating Goals

The overall goals for 2018 are to continue to operate the Richard J. Daley Center at the same high level of service while undertaking projects to improve the operating efficiencies, lower costs and improve the working environment of the 30,000 people that access the building daily. To achieve these goals we plan on undertaking the following projects:

- **Utility Procurement:**
During the 4th quarter of 2017, the building competitively bid consulting services for utility procurement. As a result of the pending request for proposal process, 2018 electrical and natural gas supplies will not be purchased until January 2018. Therefore, a conservative approach was taken towards the 2018 Budget, and we hope to experience some economies once the utilities are procured.
- **Outsourcing Engineering Services:**
The building procured proposals for 3rd party engineering management services. As part of the proposal process, the lowest bidder, Able Engineering performed an assessment of staffing levels and recommended a reduction of 2 operating engineers.
- **Elevator Maintenance RFP:**
The current elevator maintenance service agreement with Schindler Elevator is set to expire in 2019. In preparation of the request for proposal process, we will contract a consultant to perform a maintenance audit of the service agreement and elevator equipment. From there, the consultant will develop an RFP package to be competitively bid and awarded by the end of the year 2018.
- **27th Floor:**
Cook County has taken over occupancy of approximately 50,000sf on the 27th in June of 2017. We will work with the County to complete the design and construction of the space in 1st quarter 2018.
- **Plaza Event Marketing and Revenue:**

In 2017, along with the PBC, we were able to update the plaza permit application and increase plaza event usage fees. A new brochure, Facebook and Twitter accounts were also created to market private events and weddings. As a result, we are projecting a 75% increase in plaza event revenue from \$95K to \$167K annually.

Budget Variance Explanations

When compared to the 2017 Operating Budget, 2018 operating expenses are anticipated to increase by 0.32% or \$50K. Below are explanations for the variances between the 2017 and 2018 Operating budget operating accounts meeting a variance threshold of \$5K and 5%.

- The \$12,930 increase in Retail Income is a result of the new ATM license agreement with the Chicago Municipal Employees Credit Union (CMECU).
- The \$61,804 increase in Income from Services Resold is due to a slight rise in natural gas and electrical rates. Both utilities are consumed during the transportation of steam to the County Building and City Hall.
- The \$177,367 increase in Utilities results from a very conservative approach the building has taken to the natural gas and electric budgets. The building is currently competitively bidding 3rd party utility procurement consulting services. Once the proposal process is completed and a new agreement is reached, the utility commodities will be purchased for 2018. Hopefully, actual rates will be lower than the rates included within the 2018 budget.
- The \$159,380 increase in Security Expense stems from annual increases to labor rates and vacation coverage expenses for all security staff. Vacation coverage costs were not included in the 2017 Budget as vacation time was paid out to the security staff in 2016 as part of new services agreement. Finally, the security staff will now operate 1 of the building's 2 freight elevators which will also increase 2018 security expense and decrease general building expense.
- The \$93,771 decrease in Administrative Expense is a result of the anticipated increase to plaza event revenue. Plaza event revenue directly offsets the administrative salary expenses for the building.
- The \$45,000 decrease in Insurance Expense is primarily a function of the anticipated reduced Property and Liability coverage which are procured by the Public Building Commission.

Capital Improvement Plan

The 2018 Capital Improvement Budget includes \$4,945,458 for new projects such as Building Automation System Upgrades, Façade and Louver Repairs, Façade Access System Repairs, Exit Ramp Barrier Replacement and Repairs to Clark Street Stairway.

In 2018, we will be starting most of the projects identified in the 2017 Property Condition Assessment (PCA). In 2017, performed the PCA and developed a new 5-year capital plan which will commence in 2018. See the list of capital projects anticipated for 2018 below:

1. Building Automation System Upgrades - **\$600,000**
 - i. Upgrades to the building's automation system. 2017 Property Condition Assessment reported that the automation system needs to be upgraded as controls and hardware are no longer manufactured and obsolete.

2. Concrete Sealer and Traffic Topping Re-Application at Dock and Lower Level Parking Area - **\$75,000**
 - i. 50,000 square feet of concrete flooring systems at the dock and lower level parking garage areas.
3. Elastomeric Roof Coating Re-Application - **\$190,000**
 - i. 50,000 square feet replacement of existing roofing systems
4. Emergency Generator Radiator Replacement - **\$350,000**
 - i. Replacement of radiator that serves the emergency generator on the 31st floor.
5. Exit Ramp Barrier System Upgrades - **\$700,000**
 - i. Existing barriers are certified with a crash rating of K4, yet require a United States Department of State crash rating of K12.
6. Façade and Louver Repairs - **\$1,000,000**
 - i. Water infiltration and deterioration of outside air intake louvers.
7. High Court Room Lighting Upgrades - **\$50,000**
 - i. Upgrading to LED bulbs to save energy costs and extend the life of the bulbs which leads to less ongoing maintenance and intensive labor.
8. Plaza Sealant Joint Replacements - **\$103,458**
 - i. Replacement of existing exterior plaza sealant joints.
9. Security Upgrades - **\$250,000**
 - i. Miscellaneous upgrade to the building's security systems and infrastructure.
10. Façade Access System Upgrades - **\$500,000**
 - i. Full inspection and replacement of all necessary mechanical, electrical and structural components associated with the façade access system.
11. Repairs to Clark Street Stairway - **\$697,000**
 - i. Investigate and perform repairs to the vertical displacement between granite, cracks in granite and corrosion staining at Clark Street stairway.
12. Re-lining of Cooling Towers - **\$180,000**
 - i. Installation of new lining system within 7 of the building's 12 cooling towers.

1. See Electrical Budget Worksheet based on utility consultant projections and existing procurement. No purchases have been made for 2018 electricity as of July 2017. Therefore, 2018 Budget speculative market rates and historical usage averages.

2. See Natural Gas Budget Worksheets. Proposed 2018 Budget based on utility consultant projections and existing procurement.

3. See Natural Gas Budget Worksheet (2018 Budget Tenant Steam Cost). Includes all costs for City Hall and County steam usage.

These costs are offset against the overall utility expense category.

Also, includes reconciliation performed for 2016 steam usage. Credits owed to City and County totals \$51K offset against their 2018 steam charges.

Variance Explanation:

Reconciliation credits or charges vary from year to year based on City Hall/County Bldg usage.

Steam budget is based on prior year usage.

2018 electrical and gas rates remain unhedged until completion of competitive bidding of utility consulting services. Therefore, utility rates are speculative of 2018 market conditions.

4. See Water Budget Worksheet.

5. Energy Performance Contracting Loan (March 2011 through September 2025). Payments due in March and September. Funded by savings created and applied to utility and

4. Project Budgeting

Project Budgets are approved by our Client and PBC Boards in order to facilitate project delivery.

Undertaking: The Undertaking Request and Budget, when approved by the Client and PBC Boards, codifies the overall program, budget, schedule, and conceptual design created through the Planning Phase, and allows the PBC to enter into the Design, Site Preparation, and Construction Phases. The undertaking budget includes all of the costs PBC intends to incur in the delivery of the project. The PBC undertaking is our commitment to our clients and the citizenry at large that the PBC will deliver each project – meeting and exceeding goals for scope, schedule and budget.

Administrative Fee: Among the costs in the project implementation portion of the project budget is the PBC Administrative Fee, a figure of 3% of the estimated construction costs of the project. Cumulatively, these Administrative Fees fund the majority of the PBC’s Administrative Budget. The PBC’s practice is to collect these fees at five installments:

1. Board approval of a project undertaking
2. Notice to proceed
3. 50% of construction progress
4. Substantial completion
5. Final project closeout.

These milestones allow for this source of revenue to reasonably match the PBC’s application of resources on the project.
